

Concerns on Improvement of Sand Hill Road

I write as a former member of Town Meeting and as a long time resident of North Amherst. Unfortunately due to a conflict, I can not attend the meeting on June 29th, at which time the issue of improving Sand Hill Road will be brought up. I do not believe that the siting of the houses, the location of the trees, and most especially the terrain make widening of the road or building a sidewalk appropriate fixes.

As a member of Cherry Hill Cohousing and someone who often walks and drives that road, I know that the road is in great need of repair and should be fixed rather than patched from its intersection with Pine Street to its intersection with State Street.
